LETTER OF RECOMMENDATION

To,

The officer in – charge of Graduate Admission

Dear Sir,

I am extremely happy to recommend XXXXXXX candidature for graduate studies in your university. I have known him over a period of four years and have taught him the subjects of Web technologies, Web Designing lab. My interaction with his class as an instructor has introduced me to some of his unique abilities and personality.

He is a remarkable, young man with, exceptional talent. The most important ingredient of his character is his 'never give up' attitude which stands out and makes a mark in every dimension of his life. His strong desire to search deep, I believe, makes him what he is. This added to his passion for the subject gives him a unique edge over his peers and makes him an excellent student. His never ending thirst for knowledge, I am sure, will make his successful when he takes up research at the master's level. Being Computer student, his keen interest in computational skills and application of these skills in the project impressed me a lot. He is always committed, industrious and sincere towards work.

High grasping power and ability to reason logically seem to come naturally to him. His punctuality and hard working nature, keep him well ahead of his peers he also maintains a very good rapport with his peers and is a team man. His ability to convince people has always impressed me. Good communication and organizational skills help him to be at the forefront of organizing seminars and group discussion classes.

He has been a good student all his life which is also well supported by his activities. I can stand a guarantee for his aptitude and information in these mentioned subjects. He ranks among the top 4% of the students I have taught.

I strongly feel that he is worthy of graduate study at your university. In my opinion, a student of his qualities deserves admission into your esteemed university and is well worth of financial aid.

Sincerely,

Prof. XXXXXXX

School name
