

LETTER OF RECOMMENDATION

With pleasure I recommend XXXXXXXXXXXXXXXXXXXX who was my student at XXXXXXXXXXXX Engineering and Technology College (Affiliated to Gujarat Technological University) during her B. E. in Computer Engineering. As the Professor in the department, I taught her Java during the entire session I found her to be extremely hardworking and sincere.

Persevering and undeterred, XXXXXXXXX relentlessly pursues her goals and is prepared to work hard to accomplish her tasks. She has been consistently above average in her work, rising up to challenges whenever the occasion demanded it. She enjoys brain storming with her friends and is open to new concepts and technologies. She has a good grasp of her subject matter and is thorough with the basics. XXXXXXXX is competent in her work. Being one of the most commonly employed technologies in use today, XXXXXXXXX has made herself proficient in her programming. She is now well grounded in these areas of expertise.

XXXXXXXXX is highly zealous in learning and implementing new things. She puts her wholehearted efforts to successfully complete her assignments and projects and this has always given her valuable practical knowledge in the subject. She is meticulous and attends to details and specifications of the assignments to ensure perfection, and has shown great eagerness to pick up new methods and processes to effective use. She is knowledgeable and confident and innovates with courage and conviction in her ideas and the technology she employs. Karishma is thus able to exploit the available technology and systems to optimize results and more so for the learning experience therein.

I wish her all the luck in her further studies. May she get the right guidance to make her dreams come true I recommend her for further studies at your prestigious university.

Sincerely,
Professor's name
Assistant Professor,
Computer Engineering Department
XXXXXXXXX College of Engineering and Technology.
Ishwariya,Rajkot.
Gujarat Technological University.
