

LETTER OF RECOMMENDATION

I see that Mr. XXXXXXXXXX has applied for Master's program in your esteemed university. I have observed and interacted with Mr. XXXXXX since over four years now, I would be pleased to offer evaluation of his potential for your consideration. I have seen his desire to pursue higher studies in the area of his interest.

I have taught him many subjects like Computer Programming and Utilization, Object Oriented Programming with C++, Object oriented programming using Java, Advanced Java and Python Programming. Through my observation, I would like to say that he is attentive and studious and possesses a positive attitude towards academics and he is very enthusiastic for learning new things. He takes interest in depth of knowledge in each subject and he is very active in class, specially jam-packed with new ideas. His academic excellence is coupled with optimal leadership qualities making him a vital asset to the institution. Mr. XXXXXXXXXX has proved himself as strong personage with participating, organizing and volunteering various events, workshops, tech-fests and industrial visits. He is prompt and is always eager to help or assist facilities in their work and also helps his classmates in their studies.

In addition to that Mr. XXXXXX possesses effective communication skills and is warm person with an ability to look at the brighter and positive side of life. He is deeply committed to his goals of undertaking graduation program from a prestigious university. Being one of the brightest students I have encountered, Mr. XXXXXX had always impressed me by his intellectual skills, tons of knowledge and unique new ideas. Hence, I can tell you that he will fully justify the course to which he is admitted. It is my immense pleasure to recommend him for admission at your renowned university that leads him to excellence in his future.

Sincerely,

Professor's name
Assistant Professor & Head of Department
Information Technology Department,
XXXX College of Engineering and Technology,
