

LETTER OF RECOMMENDATION

I am pleased to write this letter of recommendation for Dr. XXXXXXXXXXXX who is applying for admission to your distinguished program. She has been a bonafide student of XXXXX research institute of dental science from September 20XX, including one year of rotating internship. In capacity of the college Dean and head of the department of Prosthodontics, I have interacted with and guided Dr. XXXXXXXXXXXX throughout the course of her education in dentistry. I was impressed by her especially polite and respectful manner, greeting professors and staff whenever we crossed paths.

I have observed her putting patients at ease, treating them in a very kind and gentle manner that gained their confidence and facilitated treatment. She also demonstrated a special talent for working with elderly patients in the practice calming their nerves and making them feel comfortable. She was clear and precise when explaining the proper care of dentures and patiently answered all questions thoroughly as an intern, she demonstrated good knowledge of the properties of the materials and prepared a good number of complete denture, also having taken many RPDs and FPDs. She is one of the few interns who had a knack for designing dentures with an artistic grace. Dr. XXXXXX her best on spreading oral hygiene awareness amongst the population on the celebration of World Oral health Day, I admired her agility in management and her public relation skills which made this endeavor a great success. She was at her very best when working in community organization. I heard great comments from her community dentistry professors, including her prowess at organizing rural community camps on her own. During these camps, she demonstrated her leadership skills in everything ranging from material dissemination to the management of events.

Dr. XXXXX has never missed any opportunity to attend community seminars and national or international conference. She is a hardworking, warm and kind young woman. Her curiosity for all things having to do with density and her constant and relentless pursuit of excellence in every aspect of dental care in which she is involved makes her a joy to be around. I truly believe that Dr. XXXXXXXX will prove to be a promising student in your institute and will make you feel proud. I wholeheartedly wish hr good fortune for future endeavors.

Sincerely,

Dr. Professor's name

HOD and Professor (department of prosthodontics)

XXXXXX Research Institute of Dental Science
