

## **LETTER OF RECOMMENDATION**

I am filled with joy as I write this letter of recommendation for Dr. XXXXXXXX who has completed her bachelor's in dental surgery from XXXXXXXX research institute of Dental science where I lead the department of oral pathology. As the head of department, I have interacted with her often where I have discovered a myriad of excellent qualities to becoming a successful professional person in field of healthcare in her upcoming future.

She has always been a ambitious and energetic student, keen towards learning new things regarding the subject. During my lecture, I have seen her raising doubts without even more hesitation and trying to absorb all new data provided during lectures. Occasionally, she has come to me even after lectures to discuss the doubts she got from reading other study materials and reference books. I have always found her attentive in all m lectures and actively participation in discussion on topics of her interests, seminars as well as conferences held during her student life.

Dr. XXXXXX has always been in good books of everyone associated with the college I have been known to. It is required to acknowledge that no one in my staff complained about her in regards of her behavior or academic performance. Under my guidance, she has presented a seminar on 'Acquired immunodeficiency syndrome' (AIDS), which to me showed a great depth of research and the hard work put in by Dr. XXXXXX to find report facts which one wouldn't come by in a textbook. Apart from this, she is a resourceful, creative and solution oriented person and was able to bring up new and innovative approaches to her assignments. Moreover, she has demonstrated qualities of leadership, trustworthiness and humanity towards her companions when she was entrusted to do a poster presentation on topic of 'Leukoplakia' with two other students.

Now that I can aware of Dr. XXXX endeavor to study masters, I feel it a necessity to support her in her quest. Taking her performance and all her qualities in account. I believe she deserve a chance to further enhance her knowledge and upgrade it at your university. Therefore, I strongly recommend her application at your university and wish her all the best.

Sincerely,

**Dr. Professor's name**

**HOD and Professor (Department of oral Pathology)**
